Professional Summary

- Aspiring Software Engineer with AWS certification and strong skills in Java, Data Structures, and AI-based projects. Passionate about solving real-world problems.

Education

Aditya College Of Engineering & Technology <i>B.Tech in Information Technology - CGPA: 7.00</i>	Aug 2022 - May 2026 <i>Kakinada, A.P.</i>
Mahendra Junior College <i>Intermediate M.P.C (Science) - 78%</i>	Jun 2020 - May 2022 <i>Srikakulam, A.P.</i>

Technical Skills

- **Languages:** Python, Java, C, C++, SQL
- **Developer Tools:** VS Code, Excel, Git & GitHub
- **Technologies:** AWS Cloud, Data Structures & Algorithms, OOPS, Computer Networks

Certifications

- | | |
|---|------------|
| • AWS Developer Associate Amazon Web Services | Jun - 2025 |
| • OCI Generative AI Professional 2025 Oracle | Oct - 2025 |
| • Data Platform Foundations Associate Oracle | Oct - 2025 |
| • Introduction to Networks Cisco Networking Academy | Jul - 2024 |

Internships

- | | |
|---|---------------------|
| • APSSDC – AI/ML Summer Internship | Jun 2024 - Jul 2024 |
| • APSCHE – Generative AI with IBM Cloud | Jun 2025 - Jul 2025 |
| • Technical Hub – AWS Cloud Computing | Jun 2025 - Jul 2025 |
| • Smart Internz – Fullstack Developer(Mern) | Dec 2025 - Mar 2026 |

Projects

- **Health AI using IBM Granite** –Developed a healthcare chatbot handling 200 queries with 90% accuracy, improving response efficiency by 30% - Jun 2025. 🐙 GitHub
- **Scalable Network Traffic Monitoring on AWS** –Designed a system processing 500 events per second, reducing detection delay by 40% - Jun 2025. 🐙 GitHub
- **Maze Solver Using DSA** –Developed a BFS/DFS-based solver handling 1000 nodes and 50 mazes, improving pathfinding efficiency by 35% and reducing computation time by 25% - July 2025. 🐙 GitHub

Achievements

- Solved 250+ Data Structures & Algorithms problems across LeetCode, CodeChef, and GeeksforGeeks.
